

Founder details for review

01 Profile

Field	On the website
Name	Deepak Pazhoor
Title	Founder and principal engineer
Company	DeepTight Pty Ltd, trading as DeepTight Consulting
Service area	Please supply (see question 6)
Founded	2026
Practice focus	Control systems, OT cybersecurity and plant reliability.
Sectors	Heavy industry, Resources, Utilities, Critical infrastructure

02 Career record

Period	Role	Employer and work
2011–2012	Instrumentation supervisor	CTCI. Construction and commissioning of instrumentation on an LNG regasification facility.
2013–2015	E&I commissioning engineer	Punj Lloyd Oil & Gas Malaysia. Instrumentation commissioning on a cross-country gas pipeline: loop checks, handover and start-up.
2017–2019	Intern, graduate and control system engineer	BLOCHTECH Engineering, Perth.
2019–2024	Control system engineer, then senior control system engineer	Hancock Iron Ore.
2024–present	Lead operations technology and control systems	ATCO Australia, Perth.
2026	Founded DeepTight Consulting, Perth	Control systems, OT cybersecurity and plant reliability.

Career paragraph on the About page

Deepak Pazhoor founded DeepTight Consulting to give critical infrastructure operators engineering and cybersecurity advice that holds up on a running plant.

His career began in instrumentation construction and commissioning in oil and gas, on an LNG regasification facility and then a cross-country gas pipeline in Malaysia. After a master's in instrumentation, control systems and

automation at Edith Cowan University, he worked as a control systems engineer in Perth, in mining at Hancock Iron Ore. He currently leads operations technology and control systems at ATCO Australia.

Working on site makes one gap obvious: security teams can underestimate the availability constraints of industrial automation, while plant engineering teams are asked to defend systems against threats they were never designed for.

DeepTsight was established in Perth, Western Australia, to close that gap, with one practitioner accountable for the engineering, the functional safety and the segregation.

03 Credentials register

Each credential is shown on the website with its issuer so a buyer can check it. None will be published until you confirm it. Verification links are shown under each issuer.

Academic qualifications

Item	Issuer / detail	Dates
Master's degree, instrumentation, control systems and automation	Edith Cowan University	Issued 2018
Bachelor of Technology, instrumentation and control engineering	SNMIMT, Maliankara	Issued 2011

Professional registrations

Item	Issuer	Number / ID	Dates
Chartered Professional Engineer (CPEng)	Engineers Australia www.credly.com/badges/ac6d6a99-679d-4210-a578-ed55f8836bcd/linked_in_profile	Please supply	Issued 2024

Certifications

Item	Issuer	Number / ID	Dates
ISA/IEC 62443 Expert	International Society of Automation (ISA) app.badgecert.com/public/badges/bee zg nk j	Please supply	Issued 2026
ISA/IEC 62443 Cybersecurity Fundamentals Specialist (CFS)	International Society of Automation (ISA) app.badgecert.com/public/badges/ug j f x e t x	Please supply	Issued 2026
ISA/IEC 62443 Cyber Risk Assessment Specialist (CRAS)	International Society of Automation (ISA) app.badgecert.com/public/badges/igaoyuzi	Please supply	Issued Please supply
ISA/IEC 62443 Cybersecurity Design Specialist (CDS)	International Society of Automation (ISA) badgecert.com/bc/html/show-badge.html?b=upbqwvgu	Please supply	Issued Please supply

Item	Issuer	Number / ID	Dates
ISA/IEC 62443 Cybersecurity Maintenance Specialist (CMS)	International Society of Automation (ISA) app.badgecert.com/public/badges/pradxjmo	Please supply	Issued Please supply
Certified Automation Professional (CAP®)	International Society of Automation (ISA) app.badgecert.com/public/badges/cshxdszy	Please supply	Issued 2025 Expires 2028

Publications

Item	Issuer / detail	Dates
Publication	Please supply: title, venue, co-authors, year and DOI (see question 3), or confirm there is none	

Platforms and standards

Item	Issuer / detail	Dates
PLC, RTU, SCADA and DCS	Rockwell Automation (Allen-Bradley), Schneider Electric, GE, Yokogawa, Honeywell and ABB	–
Engineering tools	Please supply the software tools you want listed	
ISA/IEC 62443	Industrial automation and control system security	–

Home page summary (four headline credentials)

Credential	Issuer
Master's degree, instrumentation, control systems and automation	Edith Cowan University
Chartered Professional Engineer (CPEng)	Engineers Australia
ISA/IEC 62443 Expert	International Society of Automation (ISA)
Certified Automation Professional (CAP®)	International Society of Automation (ISA)

04 Company contact details

Field	On the website
Registered office	Level 11, 191 St Georges Terrace, Perth WA 6000, Australia
Email	enquiries@deepsight.com.au
Phone	Please supply
ABN	Please supply
LinkedIn (for the website)	Please confirm which LinkedIn page the website should link to (see question 7)

05 Questions

#	Question	Answer
1	A Credly badge for the National Engineering Register (NER) was supplied, but the record shows NER expired in July 2025. Is NER current? If so, it can be added to the register.	
2	The ISA/IEC 62443 specialist certificates (CRAS, CDS, CMS): what year was each issued? Please also give the credential ID or number for each certificate and for CPEng.	
3	The site has a slot for a RAMS symposium paper. Do you have a publication? If so: title, venue, year, co-authors and DOI.	
4	Earlier draft copy mentioned power generation experience. Neither source mentions it. Should the site mention it?	
5	Which engineering software tools should be listed (for example configuration or design tools)?	
6	Where does DeepTsight work: Perth only, Western Australia, nationally, or overseas?	
7	The website footer has a LinkedIn icon. Should it open your personal profile or a DeepTsight company page? Your profile address appears in the export as <code>linkedin.com/in/deepak-pazhoor-a29b7b49</code> . Please confirm it, or give the company page address if there is one.	
8	How quickly will you respond to enquiries (shown on the contact and accessibility pages)?
